

Decking & Shoring Systems

Heavy-Duty Shoring Beam—92.5"–102"

Heavy-Duty Shoring Beam

New Haven's NH8000-12 smooth-sided shoring beam is the most durable on the market today. It is manufactured with 6061/T6 aluminum alloy, and has a specially engineered extrusion. Assembled with .158" thickness steel end fittings for longer life. Fits both 96" and 102" width trailers. To order for Climate Control, Reefer, or 96" width vans, specify NH8000-1. Special length beams available on request.

Adjusts from: 92.5" to 102"
Decking capacity: horizontal, 2,500 lbs. uniformly distributed working load limit
Shoring capacity: vertical, 3,000 lbs. uniformly distributed working load limit
Weight: 22.5 lbs.

Note: Working load limits are only 1/3 the beam's ultimate breaking strength.

		QTY	1-19	20-49	50-99	100+
NH8000-12	HD Beam 92.5"-102"		73.00	69.75	66.75	64.00
NH8000-1	HD Beam for 96" Van		71.50	68.25	65.25	62.50

Standard Duty Shoring Beam

New Haven's NH8066-3 shoring beam is manufactured with groove-sided 6061/T6 aluminum alloy, with a specially engineered extrusion. Assembled with the same steel end fittings used on New Haven's heavy-duty beam. Fits both 96" and 102" width trailers. To order for Climate Control, Reefer, or 96" width vans, specify NH8066-1. Special length beams available on request.

Adjusts from: 92.5" to 102"
Decking capacity: horizontal, 2,000 lbs. uniformly distributed working load limit
Shoring capacity: vertical, 2,000 lbs. uniformly distributed working load limit
Weight: 21.75 lbs.

Note: Working load limits are only 1/3 the beam's ultimate breaking strength.

New Haven Logistic Sleeve

New Haven Logistic Sleeve

Use logistic straps or shoring beams to connect to the NH8069-1 Logistic Sleeve. Unusual or awkward loads are easier to secure with the New Haven Logistic sleeve. All four sides are accessible for beam or cargo control application. Even deck across double opening truck or trailer side doors. Painted safety yellow.

NH8000-LS Logistic Sleeve 36.30

Steel Load Lock

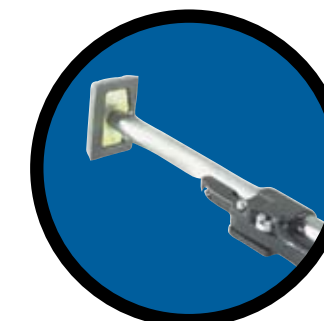

The NH8040-90 Steel Load Lock provides quick securement of general cargo when logistic track is not available. Not to be used for decking or rolling freight. To order Aluminum Load Locks, specify Model NH8040-60. Special length bars available on request.

Adjusts from: 87.25" to 104.25"
Weight: 12.1 lbs.

		QTY	1-19	20-49	50-99	100+
NH8040-90	Steel Load Lock		31.60	30.75	29.65	28.20
NH8040-60	Aluminum Load Lock		36.00	35.15	34.25	32.70

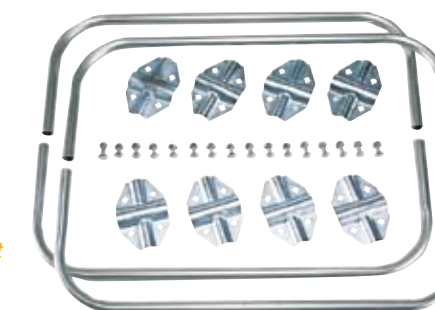

Steel Load Lock

Loop Kit

The NH8080-1 Loop Kits increase the utility of your Load Locks by adding additional shoring area. Kits are quickly assembled. All hardware included.

		QTY	1-19	20-49	50-99	100+
NH8080-1	Loop Kit for Saf-T-Bar		33.15	32.30	31.20	29.80

Loop Kit

Heavy-Duty Steel Jack Bar

When heavy-duty securement of cargo is necessary, and E track is not available, the New Haven HD Jack Bar is the right product for the job. This bar secures itself against the walls of your truck or trailer with a heavy-duty tire jack style ratcheting mechanism. Cover more surface area with model NH8050-2, with permanent loops already welded to the bar. Fits 96" and 102" vans.

		QTY	1-19	20-49	50-99	100+
NH8050-1	Steel Jack Bar		38.70	36.50	34.85	33.15
NH8050-2	Steel Jack Bar with hoops		69.75	67.80	65.85	63.05
